

KHAYLA TOKEN

INTRODUCTION

Khayla Tokens is a new concept in crypto currency that deserves to be called digital assets, we have a unique system that can overcome the problem of supply and demand.

PROBLEM

Do you know that every 10 minutes bitcoin issues a new supply of 12.5 or around \$ 50,000, which means that every 10 minutes, there must be a new investor who buys 12.5 BTC. and that means when there are no new investors the price will go down.

Or ethereum tang is almost every 10 seconds to issue a supply of 2 ETH, what happens when no new investor buys the supply.

Yes, the price will go down because there is no supply to increase and keep buying.

Have you ever bought an ico and then a few months later the price dropped because the buyer did not increase, yes once again the biggest problem was the addition of supply without additional investors / demmand

SOLUTION

We found a concept that could solve that biggest problem.

Not Like any other coin that uses a mining system, and raises supply every new block, supply the Khayla token will decrease.

We create tokens with a reduced supply concept, we will burn the supply supply every month.

So that the amount of supply will always decrease, we use 50% of the company's profits to reduce supply every month.

In formula, the price will never go down lower than the previous month, almost it can be said that the price will always go up every month, because the supply will decrease.

New community + decrease supply , Do you know what will happen ?
welcome to the best concept!

PRODUCT

We are **INDO KHAYLA HERBALTAMA**,
a company engaged in health and cosmetics industry.

PRODUCT INTRODUCTION

Health & Wellness is the Next Trillion Dollar Industry Wellness, defined as the quality or state of being healthy in body and mind, especially as the result of deliberate effort, is a mindset we believe has seeped into the lives of the everyday woman, and has emerged as a lifestyle here to stay.

Sale End	April 30 2019 (11:59 PM)	
Hard Cap	1,000,000 USD	

If there are unsold tokens , that will be burned at the end of sale.

ABOUT

What is Khayla Token ?

Khayla token is not created for payment , but is used as Digital Asset , so that it is easy to buy and sell to between people.

Khayla token is in the concept with a reduced supply system, so that the amount of supply will never increase, because we will burn the supply every month, and supply will always decrease.

We sell tokens to make products and we will use 50% of profit to burn Tokens, so the value of Digital Assets will increase due to reduced supply.

With this concept, we believe that the price of this Token will be stable and will always increase relatively, so that it is precisely called Digital Asset.

WHY IS KHAYLA TOKEN IS VALUABLE?

Supply Will Never Increase

Not Like any other coin that uses a mining system, and raises supply every new block, supply the Khayla token will decrease.

Fast Transaction Between User

The Khayla Token uses ERC20 so the transaction will be completed in a few seconds and secure.

Growth Of Token Value

Our (the company) will burn tokens every month, Without any new investors for buying tokens the price will continue to rise.

Price Will Still UP

50% company net profit will use for buy token on market , then will burn on end of month price will up.

Double Profit If Community Is Growing

New community + decrease supply , Do you know what will happen ?
welcome to the best concept !

Please read the following notification properly before taking part in KAL token sale. This notice applies to all persons who read this document. Please note this notification may be changed or updated.

KAL token sale is carried out by Khayla token team, a company incorporated and existing under the laws of Indonesia. We also draw your attention, that the Kayla token Whitepaper (hereinafter – «WP») does not constitute any relations between you (hereinafter – «you» or the «Buyer») and the Seller. Purchasing of KAL tokens is available only after accepting the Terms and Conditions (hereinafter – «T&C») and Privacy Policy.

The Buyer is only entitled to certain rights within the T&C. KAL tokens are not intended to constitute securities in any jurisdiction.

WP does not constitute a prospectus or offer document of any sort, and is not intended to constitute an offer of securities or a solicitation for investments in securities in any jurisdiction. WP is posted for information purposes only. The content of WP is not a financial promotion. Therefore, none of the content parts of WP should be considered an invitation or inducement to engage in any sort of investment activity. Before purchase KAL tokens read carefully all the information set out in this Disclaimer, WP, T&C and Privacy Policy and ensure that you are aware of all potential risks. The section «Risk Statement» details all potential risks that you should consider.

Risk Statement

No regulatory authority has examined or approved any of the information set out in WP. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of WP does not imply that the applicable laws of any jurisdiction, regulatory requirements, or rules have been complied. To the maximum extent permitted by the applicable laws, regulations and rules, the Seller and its affiliates and respective officers, employees or agents, in relation to the website (<https://khayla.io>), KAL tokens, KAL products and services will not be liable for any damages of any kind, including, but not limited to, direct, consequential, incidental, special or indirect damages (including but not limited to lost profits, loss of revenue or third party loss whether foreseeable or otherwise, trading losses or damages that result from use or loss of use of the website, KAL tokens, KAL products and services). For the avoidance of doubt, the Seller expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) reliance on any information contained in this document, (ii) any error, omission or inaccuracy in any such information, (iii) any action resulting therefrom, or (iv) usage or acquisition of KAL products and services, available on the website and other electronic platforms.

You confirm and agree that you are not purchasing KAL tokens for purposes of investment, speculation for immediate resale or other financial purposes. Some of the statements in WP include forward-looking statements which reflect the Seller's current views with respect to execution roadmap, financial performance, business strategy and future plans, both with respect to the Seller and the sectors and industries where the Seller operates. Statements which include the words «expects», «plans», «believes», «projects», «anticipates», «will», «aims», «may», «would», «could», «continue» and similar statements are of a future or forward-looking nature. All forward-looking statements concern the matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause the Sellers's actual results to differ significantly from those indicated in these statements. These factors include but are not limited to those described in T&C, which should be read before purchasing of KAL tokens.

Restricted areas

As KAL token is utility token by its nature, there are no restrictions to sell them to residents of any country, unless the law of the Buyer's country prohibits citizens of that country to buy digital assets of any kind.

WP or any part thereof, as well as any copies, must not be taken or transmitted to any country where distribution or dissemination of such information is prohibited or restricted.
